# Definição e princípios de *Boa Governança*

*OCDE ; Nações Unidas ; Comissão Europeia*

*Good governance is characterised by participation, transparency, accountability, rule of law, effectiveness, equity, etc.*

In: *OECD, Glossary of statistical terms, 2007*

\*

*According to the World Bank, good governance entails sound public sector management (efficiency, effectiveness and economy), accountability, exchange and free flow of information (transparency), and a legal framework for development (justice, respect for human rights and liberties).*

In: *United Nations, Definition of basic concepts and terminologies in governance and public administration, 2006*

\*

*Five principles underpin good governance and the changes proposed in this White Paper: openness, participation, accountability, effectiveness and coherence. Each principle is important for establishing more democratic governance. They underpin democracy and the rule of law in the Member States, but they apply to all levels of government – global, European, national, regional and local. [...]*

In: *European Commission, European Governance : a white paper, 2001*
